Argyle® Zip EH Chemical Resistance

FW SB 822314

Insole

Heavy-duty, flexible anti-bacterial non-woven insole.

Midsole

Directly moulded Polyurethane midsole for greater shock absorption.

Outsole

Oil and acid resistant nitrile rubber outsole, which is heat resistant to 300°C.

EH Series

Electric Shock Resistant: 18000 volts at 60 Hz for 1 minute in dry conditions, leakage current of less than 1 milliamperes. Meets requirements for American Standard ASTM F 2413 -

EH. Warning: Electrical shock resistance deteriorates rapidly in a wet environment and with wear.

Description

150mm derby style lace-up and zip ankle boot with padded collar and tongue. This boot includes an industrial grade zip, a rear zip gusset and clearing outlet which protects the foot from chemical exposure.

Upper Materials

Cowhide caustic and water resistant leather stitched in Nylon thread. Non-Corrosive Nomex Lacing.

Toe Cap

200J Safety steel.

Lining Materials

This boot is lined with Baltico®, which is a soft, non-abrasive, hydrophobic material that wicks perspiration away from the foot, enabling the skin to remain cool and dry. Fresche® Bioscience is applied during the manufacturing process to provide antibacterial and antimicrobial protection to the boot. Fresche® Bioscience is a sustainable and renewable resource that prevents odours caused from bacteria and provides long-term protection against bacteria and fungus.

Full Innersole

A full length footbed that is inserted into the footwear to offer additional support and comfort. This footbed is made from soft polyurethane that will retain its shape and thickness throughout the life of the boot.

True Ladies Fit

Our ladies safety boots are designed just for women and include a shorter ankle-length and smaller in-step.

Most industrial footwear is made for men, with women wearing smaller versions of men's ranges, but in fact women's feet are anatomically different and not just a scaled down version.

Steel Blue is one of the leading safety footwear brands that is specifically tailored to complement the shape of ladies' feet with a true ladies last.

Chemical resistant
Toe & Heel Guards
Schoeller® Keprotec® Fabric

- Black chemical-resistant leather upper with TPU bump cap and TPU heel guard - 150mm height
- Schoeller® Keprotec® fabric and Kevlar® stitching are chemical and abrasion resistant
- Heavy-duty YKK Vislon® zip with self-clearing gusset behind the zip to prevent chemical penetration
- Full bellows tongue externally attached to reduce splash access potential
- Low density impact absorbing polyurethane midsole with anti-bacterial agent
- Rubber outsole designed to specifically increase slip resistance in varied environments
 - oil, acid and organic fat resistant
 - outsole heat resistant to 300°C
- Removable Comfort Arch footbed with XRD® Extreme Impact Protection forepart insert provides superior comfort
- Anti-bacterial, washable and breathable footbed.
- SPS Max-XRD® Technology in the heel and forepart strike zones for increased impact protection
- Thermal regulating bamboo lining
- Electrical hazard resistance
- Broad fitting Type 1 steel toe cap tested to resist a 200 joule impact

The #990 is a boot you can depend on.

It's outfitted with a water-resistant upper, TPU bump cap and a luxury Comfort Arch footbed giving you cushioning support all day.

'these are the best work boots'

**NICK WILD**

Underground Miner - 12yrs

Crawford Boots manufacture and supply award-winning footwear for the mining industry.

Located in rural NSW, founder Penny Crawford is a qualified Podiatrist with 30 years experience practising in a regional mining environment. She created the safety boots as a footwear solution to prevent the lower limb injuries and long-term damage experienced by mining, agricultural and heavy duty workers. They are purpose-made and designed to withstand work underground, above ground, in mud, concrete or water.

Now recognised nationally, and supplied to over 40 underground mining operations in Australia, Crawford Boots eliminate injuries associated with ill-fitting footwear, and to deliver improved risk management, wearer satisfaction and value for money.

Features of this specialised rubber boot

- 100% waterproof
- Enforced and crafted from 23 individual pieces of rubber in each boot
- Non-metallic YKK zip enclosed in a waterproof gusset
- Precision cut and moulded WedgeTech Inserts™
- Vulcanised bonded boot and sole to ensure no leaks
- Microban ZPTech™ neoprene lining
- Reinforced heel counter to stabilise the foot and ankle

WedgeTech™ Personalised Lock-fit System

- Each pair of Crawford Boots come with six inserts in sizes small, medium and large. The wearer identifies the right size for each foot and slots the insert into a pocket on the front of the boot. This secures the foot, preventing movement, muscle fatigue and injury.

Advantages

Cost-effective

Built tough and built to last

- 5x the life of regular footwear used in harsh work environments, significantly reducing boot expenditure
- Prevents lost time and reduced productivity due to injury
- Limits site waste

Safety

A personalised fit to prevent injury

- Personalised fit limits foot movement in the boot, increasing support and preventing slips, trips and falls
- Tailored to any foot, increasing the safety of every worker
- Certified to the highest safety standards required in harsh workplace environments

Comfort

Increased comfort, increased morale

- Tailored fit for every foot shape and size prevents strain on the lower limbs
- Cushioned innersoles provide comfortable arch and heel support
- Increased morale means fewer workplace complaints

Onsite trial report

Australian mining industry onsite field trial report, July 2019

SURVEY RESULTS

After 6 weeks of wear

79% said Crawford Boots were a better boot for work

After 3 months of wear

87% said Crawford Boots were a better boot for work

After 6-12 months of wear

74% said Crawford Boots were a more durable boot

Crawford Boots have 5x the life of common footwear used in harsh work environments, boasting savings of 32% on work boot expenditure over 12 months.

Awards & Certification

- 2019 NSW Minerals Council Health Innovation Award winner
- Patents in Australia, NZ, Malaysia, Europe, Canada
- Design Patent in USA

FW BL 024

GREY SAFETY TOE STEEL MIDSOLE GUMBOOT

Made to withstand the roughest and toughest working environments, the #024 are wide-fitting gumboots with a steel penetration-resistant midsole.

- Grey safety gumboot made to withstand harsh working environments like underground mining
- Steel toe cap and steel penetration-resistant midsole for maximum protection
- Made from a PVC/nitrile compound that is chemical, oil and acid resistant
- Soft metatarsal pad to reduce pressure and stress on the delicate metatarsal bones of your feet allowing full flexibility
- Removable Comfort Arch footbed with XRD® Extreme Impact Protection forepart insert provides superior comfort
- Anti-bacterial, washable and breathable footbed
- Wide fit and a heavy-duty tread base for extra stability and a sole pattern that resists clogging, providing superior grip in most conditions
- Distinctive upper pattern provides vulnerable areas with greater cut and abrasion resilience
- Reinforced ankle, heel and instep, and rear kick off lip
- Knit lining for comfort
- Ergonomically engineered toe spring reduces wearer fatigue
- Made in Tasmania
- Sizes 5-13

FW BL 025

GREY SAFETY GUMBOOT

The #025 gumboot is built for those with a wider foot. In addition to a steel toe cap and Comfort Arch footbed, it's also slip and abrasion resistant.

- Grey waterproof safety gumboot
- Made from a PVC/nitrile compound that is chemical, oil and acid resistant
- Soft metatarsal pad to reduce pressure and stress on the delicate metatarsal bones of your feet allowing full flexibility
- Distinctive upper pattern provides vulnerable areas with greater cut and abrasion resilience
- Removable Comfort Arch footbed with XRD® Extreme Impact Protection forepart insert provides superior comfort
- Anti-bacterial, washable and breathable footbed
- Wide fit and a heavy-duty tread base for extra stability and a sole pattern that resists clogging, providing superior grip in most conditions
- Knit lining for comfort
- Ergonomically engineered toe spring reduces wearer fatigue
- Broad fitting Type 1 steel toe cap tested to resist a 200 joule impact
- Made in Tasmania
- Sizes 5-13

FW BL 028

GREY SAFETY TOE STEEL MIDSOLE METATARSAL GUMBOOT

With an internal metatarsal guard and steel penetration-resistant midsole, our ultra-tough #028 Gumboot is built for ultimate waterproof protection.

- Grey waterproof safety gumboot with XRD® internal metatarsal guard protection
- Steel penetration-resistant midsole
- Made from a PVC/nitrile compound that is chemical, oil and acid resistant
- Wide fit with a heavy-duty tread base for extra stability and a sole pattern that resists clogging, providing superior grip in most conditions
- Removable Comfort Arch footbed with XRD® Extreme Impact Protection forepart insert provides superior comfort
- Anti-bacterial, washable and breathable footbed
- Distinctive upper pattern provides vulnerable areas with greater cut and abrasion resilience
- Reinforced ankle, heel, and instep with rear kick-off lip
- Broad fitting Type 1 steel toe cap tested to resist a 200 joule impact
- Suitable for mining and heavy industrial applications
- Made in Tasmania
- Sizes 4-14

FW OL 10-110

WHITE SAFETY TOE FOOD INDUSTRY GUMBOOT

- This King's waterproof gumboot is made from heavy duty PVC with PVC/Nitrile sole, that is resistant to solvents, mild acids, alkali, some chemicals, oil and fats.
- The Type 1 Toe Cap offers a wide profile shape to suit your foot and allows greater comfort.
- The wide grip tread provides optimum dirt release and traction.
- Removable footbed for added comfort.
- Three trim heights.
- Reinforced ankle, heel and instep for optimum support.
- Kick off spur on heel for easy removal. • Nylon lined for easier cleaning. Meets AS/NZS 2210.3 standard.
- Sizes 3-13

FW BL 004

WHITE NON SAFETY FOOD INDUSTRY GUMBOOT

These waterproof Chemguard gumboots are recommended for food industry workers who don't need steel toe caps.

- White waterproof general purpose gumboot
- Made from a PVC/nitrile compound that is organic fat, oil and acid resistant
- Fully removable contoured EVA footbed
- Reinforced ankle, heel, and instep with rear kick-off lip
- Recommended for the food industry
- Made in Tasmania
- Sizes 4-12

FW OL 22-205

GREY SAFETY TOE STEEL MIDSOLE METATARSAL GUMBOOT

- Waterproof PVC gumboot
- STEELflex® steel midsole
- penetration protection
- METprotect® Metatarsal protection
- Kick off spur
- Two trim heights
- Sizes: 5- 13
- 22 Series PVC / Nitrile Soling Technology The WB 22 series sole consists of a hard wearing heavy duty PVC / Nitrile sole that offers extra deep tread for greater stability and grip on uneven and loose surfaces. WB's 22 Series PVC / Nitrile soling technology offers:
- Heat resistant to temperatures of 130° Celsius.
- xcellent slip resistance, rated SRC.
- Resistant to solvents, mild acids, alkalis, some chemicals, oils and fats.
- Will not mark floors.
- Electrical Hazard (EH) Protection. Reduces danger of accidental contact with live electrical circuits in accordance with ASTM F2413-18.

FW OL 10-100

BLACK SAFETY GUMBOOT

Made from heavy duty PVC with a PVC/Nitrile sole, this King's safety gumboot is ideal for the agriculture, building & construction, manufacturing and food processing industries. A Type 1 Toe Cap offers a wide profile shape to suit your foot and allows greater comfort with no contact to the toe cap. The sole is resistant to solvents, mild acids, alkali's, some chemicals, oils and fats. Wide grip tread for optimum dirt release and traction. Removable footbed for added comfort. Three trim heights. Reinforced ankle, heel and instep for optimum support. Kick off spur on heel for easy removal. Nylon lined for easier cleaning. Anti-static. Meet AS/NZS 2210.3 Standard.

Size 3-13

FW BL 005

GREEN NON SAFETY FOOD INDUSTRY GUMBOOT

These waterproof Chemguard gumboots are recommended for food industry workers who don't need steel toe caps.

- Green waterproof general purpose gumboot
- Made from a PVC/nitrile compound that is organic fat, oil and acid resistant
- Fully removable contoured EVA footbed
- Reinforced ankle, heel, and instep with rear kick-off lip
- Recommended for the food industry
- Made in Tasmania
- Sizes 4-12

FW OL 10-105

BLACK SAFETY TOE STEEL MIDSOLE GUMBOOT

King's heavy duty PVC waterproof safety gumboot with stainless steel penetration resistant midsole. The PVC/Nitrile sole is resistant to solvents, mild acids, alkali, some chemicals, oils and fats. Type 1 Toe Cap offers a wide profile shape to suit your foot and allows greater comfort. Wide grip tread for optimum dirt release and traction. Removable footbed for added comfort. Three trim heights. Reinforced ankle, heel and instep for optimum support. Kick off spur on heel for easy removal. Nylon lined for easier cleaning. Anti-static. Meets AS/NZS 2210.3 Standard.
